

COAST DUAL POWER RECHARGEABLE LED TORCH

Defeat the dark with pure force. As the most powerful flashlight in our XP professional series, the COAST XP18R overwhelms any lighting challenge with dynamic, brightest-in-class light and four-mode, multi-beam capability shining up to a staggering 3650 lumens on Turbo Mode.

Featuring COAST Rechargeable Dual Power technology, this IP54 dust-resistant and storm proof powerhouse runs on a COAST ZITHION-X™ rechargeable battery (charging cable included) or standard alkaline AA's (purchased separately)—with power monitored by a real-time battery life indicator so that you're always ready.

COAST-patented SLIDE FOCUS® optical technology shines the Ultra View Flood Beam and BULLS-EYE™ Spot Beam with seamless transitions between.

SPECIFICATIONS

BATTERY TYPE	ZX960 ZITHION-X™ Rechargeable Battery or 6 x AA (Not Included)	INCLUDED	ZX960 ZITHION-XTM Rechargeable Battery One Meter USB-C Split Charging Cable Alkaline Battery Cartridge (Alkaline Batteries Not Included)
BEAM DISTANCE (HIGH)	676 ft / 206 m	LIGHT OUTPUT (HIGH)	1460 Lumens
BEAM DISTANCE (LOW)	144 ft / 44 m	LIGHT OUTPUT (LOW)	65 Lumens
BEAM DISTANCE (MEDIUM)	360 ft / 110 m	LIGHT OUTPUT (MEDIUM)	420 Lumens
BEAM DISTANCE (TURBO)	1083 ft / 330 m	LIGHT OUTPUT (TURBO)	3650 Lumens
COMPATIBLE SHEATH	No Sheath Available	RUNTIME (HIGH)	6h 30 min
LENGTH	263 mm / 10.3 inches	RUNTIME (LOW)	58 h 30 min
		RUNTIME (MEDIUM)	9 h 30 min
		WEIGHT	19.4 oz / 550 g

BATTERY CHARGES INSIDE LIGHT

COAST ZITHION™ non-ported rechargeable batteries are built to charge from within your COAST light using a COAST charging system.

PRO-TEK CHARGING

Charge directly from AC, DC, and USB. Flashlights and headlamps with COAST PRO-TEK Charging include a direct-connect port for powering back up.

BATTERY LIFE INDICATOR

Know when to power back up - with a battery-life indicator, you can always know when your battery needs to be recharged.

PURE-BEAM FOCUSING OPTIC

Pack two powerful beams into one and seamlessly transition - with no halos or hot spots - between short and long-range viewing.

BEAM LOCK

Set the beam to stay how you like it. COAST BEAM LOCK® technology makes our SLIDE FOCUS® system even more valuable.

SLIDE FOCUS

One-handed beam control. COAST's SLIDE FOCUS® system enables you to seamlessly transition between spot and flood beam with the push or pull of your finger.

DUST RESISTANT

Take on any dirty work environment with this dust resistant light.

TURBO MODE

The XP lights not only features standard light modes but also COAST's signature Turbo Mode for overpowered light in critical situations.

OVERCHARGE/DISCHARGE PROTECTION CIRCUITS

COAST batteries are built with overcharge/discharge protection, ensuring you and your battery are protected.
