Integrated  
Phone Stand

AirBase-2

AirBase-2 is a high-performance laptop cooling stand designed for gaming laptops, office notebooks, and workstations up to 17 inches. Equipped with three efficient 100 mm silent fans, it delivers powerful 87 CFM airflow while maintaining ultra-quiet 28.8 dB operation. The 5-level adjustable height and angle settings improve posture and comfort during extended use. A durable metal mesh surface enhances heat dissipation, while the ABS and metal construction ensures durability. Dual Type-C ports enable power and peripheral connectivity, while LED lighting and a built-in smartphone stand add convenience, organization, and style.

Advanced Triple Fan Cooling Performance

3 precision engineered 1500 RPM silent fans deliver up to 87 CFM airflow, ensuring rapid heat dissipation, improved laptop stability, and optimized performance.

Ultra Quiet Thermal Control

Operating at only 28.8 dB, the silent cooling system maintains powerful airflow without disruptive noise.

Ergonomic Height Adjustable Comfort

5 adjustable height levels improve viewing angle and typing posture, reducing neck and wrist strain while enhancing long term comfort.

Integrated Smartphone Stand

Built in smartphone stand keeps your mobile device upright and accessible while gaming or working, enabling seamless multitasking.

Dynamic LED Gaming Aesthetic

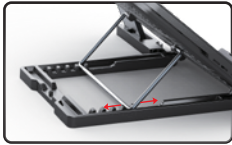

Integrated LED lighting enhances your gaming setup with a modern illuminated look, complementing high performance laptops.

Integrated USB-C Hub Functionality

Dual Type-C ports provide power as well as seamless peripheral connectivity, expanding device compatibility.

Premium Durable Construction

Engineered with reinforced ABS and metal mesh, the structure enhances airflow efficiency, long term durability, and stable laptop support for devices up to 17 inches.

5 Level Height and  
Angle Adjustable  
Ergonomic Design
