Say goodbye to overweight baggage surprises with the Instascale-50, your reliable companion for precise luggage weighing. Engineered with a high-precision strain gauge sensor, this handheld scale offers maximum accuracy up to 50kg with 50g divisions. Whether you travel light or pack it all, its anti-slip silicone surface and curved D-shaped grip ensure comfort and stability. The backlit LCD screen with dual-unit measurement (kg/lb), offers clear visibility, even in low light. Built with durable ABS and silicone, the compact build fits perfectly in carry-ons or travel pouches. With a 50,000-use lifespan and dual CR2032 batteries, travel smart and stress-free with Instascale-50.

High Precision Sensor System:

Accurately measures up to 50kg with ultra-precise 50g increments.

Bundled with
Carry Pouch

Ergonomic
Comfort Grip
