Travel Tri Pro 65W 3-in-1 GaN Charger Hub (P1242A)

Supports 4K@60Hz Video Output with Interchangeable Plugs.

Description:

Unitek Travel Tri Pro 65W 3-in-1 GaN Charger Hub is a powerful, compact, and versatile solution for charging and connectivity. It combines a 65W GaN fast charger with a 60W USB-C port, a 5W USB-A port, and 4K@60Hz HDMI output. This charger is designed for Switch 1/2 players and multi-device users. It's easy to travel with and allows you to seamlessly connect your gaming device or laptop to a TV or monitor. Enjoy gaming and presentations for work.

Product Features:

- **65W GaN Fast Charging:** Unitek Travel Tri Pro 65W 3-in-1 GaN Charger Hub utilizes GaN (Gallium Nitride) technology for faster, cooler, and more efficient charging. Delivering up to 60W via the USB-C port, it powers high-demand devices like the Nintendo Switch, gaming handhelds, laptops, MacBook Air, and tablets quickly and safely. Additionally, the USB-A port provides an extra 5W output, making it versatile for charging smaller devices like webcams, gamepads, and wireless earphones, allowing you to charge multiple devices simultaneously without extra chargers.
- **4K@60Hz Video Output:** Features HDMI output that delivers crystal-clear, ultra-high-definition video, ensuring vibrant colors and sharp details. This output is perfect for professional work, presentations, and entertainment, providing a seamless visual experience that enhances productivity and enjoyment while maintaining high standards for video quality.
- **Seamless Screen Mirroring:** Allows you to effortlessly mirror your laptop or gaming device screen to a 4K display without lag, ensuring a smooth and uninterrupted experience. This feature is particularly beneficial for gamers and professionals, as it enables fluid gameplay and clear video playback, making it ideal for gaming marathons or important presentations.
- **Space-Saving & Travel-Friendly:** The compact and lightweight design, combined with interchangeable plugs, makes it easy to take anywhere. Whether you're working from home, traveling for business, or gaming on the go, this hub is designed to charge your laptop, smartphone, tablet, and other devices while simultaneously connecting to an external monitor—all from a single, ultra-portable device.
