Emergency Safety Tool

Vexa

Vexa is a compact 4-in-1 emergency safety tool built for roadside emergencies. Lightweight and easy to carry, it's an essential addition to any vehicle, backpack, or emergency kit. Equipped with a bright 30-lumen LED flashlight, Vexa ensures clear visibility in low-light or nighttime situations. The hardened metal window hammer enables fast glass breaking for emergency escape, while the sharp seatbelt cutter allows quick release if restraints become jammed. A loud safety whistle helps attract attention during critical moments. Powered by LR44 batteries, Vexa delivers up to 60 minutes of illumination in a durable design.

All-in-One Emergency Kit

Combines LED flashlight, window hammer, seatbelt cutter, and safety whistle into one compact device, ensuring instant access to critical emergency tools without carrying multiple separate accessories.

High-Visibility LED Flashlight

Delivers bright illumination for clear visibility in dark vehicles, nighttime roadside emergencies, or low-light situations, helping you stay oriented and act with confidence when visibility matters most.

Emergency Window Breaker Hammer

Equipped with a hardened metal hammer designed to shatter car windows quickly and efficiently, enabling a fast escape when doors are blocked or inaccessible during critical situations.

Quick-Release Seatbelt Cutter

Features a sharp, concealed blade that slices through jammed seatbelts instantly, allowing rapid exit from the vehicle without fumbling or unnecessary delay in high-stress moments.

Loud Emergency Alert Whistle

Built-in high-decibel whistle produces a piercing sound to attract attention and signal for help, increasing your visibility to rescuers and bystanders during emergencies.
