XCord-CC240W-200 is a high-performance USB-C to USB-C cable designed for ultra-fast charging and reliable data transfer. Supporting up to 240W Power Delivery with PD 3.1 technology, it rapidly charges laptops, tablets, smartphones, gaming handhelds, and other USB-C devices. The integrated E-Marker chipset ensures safe, optimized power delivery. With 480Mbps data transfer speeds, plus a durable TPE jacket, reinforced cable ends, and sturdy unibody USB-C connectors, XCord-CC240W-200 delivers dependable performance for charging and syncing every day.

Extreme 240W Power Deliver:

Supports up to 240W PD 3.1 charging output, making it ideal for power-hungry laptops, gaming devices, tablets, and smartphones that require ultra-fast and reliable charging performance.

Intelligent E-Marker Protection:

Advanced E-Marker technology automatically regulates power delivery, ensuring safe charging, optimized performance, and enhanced protection for both connected devices and the cable itself.

High-Speed Data Synchronization:

Transfer files, videos, photos, and documents at speeds up to 480Mbps while simultaneously powering your devices for maximum productivity and convenience.

Reinforced Durability Design:

Strengthened cable ends and premium TPE construction help resist bending, fraying, and daily wear, delivering long-lasting reliability for everyday charging needs.

Optimized Charging Efficiency:

Wide-diameter internal conductors and low-resistance cable architecture maximize power transfer efficiency, helping connected devices charge faster and more consistently.

Secure Unibody USB-C Connectors:

Precision-engineered connectors provide a stable, secure fit with every insertion while enhancing durability and reducing connector wear over extended use.
