

# RGB FM Transmitter Kit Handsfree | 30W Power Delivery & Quick Charge 3.0

**48W**  
TOTAL OUTPUT

SmartTune-EXT

Transform your driving experience with Promate's SmartTune-EXT, the ultimate car FM transmitter that combines power, style, and convenience. Enjoy seamless music streaming and hands-free calling with Bluetooth V5.3 for stable and reliable connections. The high-powered PD30W USB-C and rapid 18W Quick Charge 3.0 ports keep your devices charged at lightning speed, while the 1.5m built-in controller effortlessly mounts to AC vents or dashboards for total control at your fingertips. Vibrant RGB lights add a dynamic flair to your car interior, while the built-in mic ensures crystal-clear conversations on the go. Designed with a comprehensive multi-protection system, SmartTune-EXT guarantees safe and worry-free use, making every drive smarter, safer, and more exciting.

## Bluetooth Car FM Transmitter

Stream your favourite music and enjoy hands-free calls seamlessly with advanced Bluetooth technology, making every drive entertaining and safe.

## Flexible 1.5m Built-In Controller

Easily access controls with the 1.5m built-in controller that mounts securely to either AC vents or dashboards for ultimate versatility and convenience.

## High-Powered PD30W USB-C Port

Charge your devices at high speed with the powerful 30W USB-C port, ensuring your gadgets are always ready for action.

## Rapid 18W Quick Charge 3.0 Port

Experience lightning-fast charging with the 18W Quick Charge 3.0 port, keeping your devices powered up in record time.

## Bluetooth V5.3 for Stable Connections

Enjoy uninterrupted music and calls with Bluetooth V5.3, offering faster pairing, stronger signals, and a reliable connection every time.

## Dynamic Sound-Activated RGB Lights

Add flair to your car with colourful RGB lights that flash to the rhythm of your music and other surrounding sounds, creating an immersive driving experience.

## Crystal-Clear Built-In Microphone

Take hands-free calls with confidence thanks to the built-in mic, delivering clear and noise-free conversations on the go.

## Advanced Multi-Protection System

Stay safe with comprehensive protection against over-voltage, short circuits, over-current, and overheating for worry-free use.
